There are over 70,000 chemicals commercially produced in the United States. The long-term effects of many of these chemicals have never been investigated. But many chemicals are harmful in very low doses. Unless generated by the body (formaldehyde, pentane), the body's level for chemicals should be non-detectable, and not "low level". Chemicals are widespread in our environment, and constant exposure to low levels can cause dysfunction in many systems of the body. The purpose in the following questions is to determine if any of your health problems can be result of chemical toxicity and to measure your **TOTAL TOXIN LOAD**.

Section IV: I understand that Section 460.413 (1) (m), Florida Statutes, and Board of Chiropractic Medicine Rule 64B2-17.006 require chiropractic physicians to retain records and x-rays for at least four years. Therefore, a chiropractic physician receiving a request for a patient's x-ray within that four-year period must retain the x-ray and provide a copy of it in lieu of the original x-ray. I, further, understand that Section 456.057 (18), Florida Section 457.057 (16), Florida Statutes, authorizes a health care practitioner or patient records owner furnishing copies of reports or records or making the reports or records available for digital scanning pursuant to this section to charge no more than the actual cost of copying, including reasonable staff time, or the amount specified in administrative rule by the appropriate board, or the department when there is no board. The Board of Chiropractic Medicine Rule 64B-17.0055, Florida Administrative Code, authorizes chiropractic physicians to charge patients \$1.00 per page for the first 25 pages, and 25 cents for each page in excess of 25 pages. The Board of Chiropractic Medicine Rule defines the reasonable costs of reproducing x-rays, and such other special kinds of records as the actual costs. The phrase "actual costs" means the cost of the material and supplies used to duplicate the record, as well as the labor costs and overhead costs associated with such duplication. The Board of Chiropractic Medicine Rule 64B-17.0055, Florida Administrative Code, authorizes chiropractic physicians to charge people who are not patients authorized to seek copies of my patient records \$1.00 per page. I understand that the HIPAA regulations authorize the practice to charge the cost of labor and hardware onto which the records are electronically copied unless the Board of Chiropractic Medicine sets lower costs. I understand that there is no cost for transmitting the electronic records by email.

This authorization will be in effect for one year from the date signed, unless you indicate a shorter period below:
